

# PREMIUM

pirnar®

AMAZING. AUDACIOUS.  
ADAMANT.

**WHAT IS PIRNAR PREMIUM?**

**It is a symbol of your home.**

It is strength, solidity and care. Warmth, kindness and desire for beauty.

It shows that you can take care for your closest and dearest, and that you wish the best for them.

It is the entrance that impresses your guests. It protects against the uninvited with care. Saves the warmth of your home. Awakens admiration of your friends. It is a technological masterpiece you will touch proudly every day.

*Premium* tells others who you are.

# THE ENTRANCE THAT AWAKENS ADMIRATION

***Premium* knows how to fascinate. Beauty, perfection and exceptionalness reflect in it ... and so do strength, endurance, determination and courage.**

This is the entrance that amazes with its dignified beauty and its refinedly designed details. Each of them is a masterpiece by itself. A selection of materials and colors seize the attention, technical perfection arouses admiration. Up to fourfold glazing

offers endless possibilities of playing with motifs, textures and lighting.

The entrance *Premium* no one can look-over in the daytime. At night, it attracts even more attention with its special lighting. When you return home tired, you will relax

just by looking at the elegant rounded lines, accented by the soft discreet light.

However, you will not be the only one to admire the entrance. People, who visit you, will admire your home for its beauty. And you.

# EXCEPTIONAL FIRMNESS

The entrance *Premium* is a personified strength. You can feel secure with it. The exceptional, up to 105 mm thick door panel takes care of protecting your home. The door is exceptionally rigid and firm owing to its thickness and special construction. The credit for this takes a combination of the thickest profiles by the company Schüco, the masterfully perfect and precise handwork, and the innovative way of joining the elements.

Each door in the series has a certificate for the anti-burglary protection class RC2 (WK2). Standard equipment includes a 3-point safety lock with two massive hooks and three massive and powerful hinges.

The entrance *Premium* with its massive construction is a note to everyone who approaches: this home is solidly protected and well guarded. People who live here are not afraid of anything. They are people who value and respect themselves.

## HINGES SCHÜCO

Strong hinges tested on constant load (1,000,000 cycles).

## GRANTED ANTI-BURGLARY PROTECTION

Burglary resistant certificate class RC2 (WK2) in all series granted from IFT Rosenheim.

BURGLARY RESISTANT  
CERTIFICATE  
**RC2  
(WK2)**  
IFT ROSENHEIM

## EXCEPTIONAL OVERALL DEPTH

Unique and stable construction.

## LOCK

Multipoint - safety lock with 2 massive hooks.

A person's feet are visible in the foreground, wearing white and dark-colored slippers. They are positioned in front of a fireplace where a bright, warm fire is burning. The scene is cozy and inviting, with the fire providing a source of light and heat. The text 'TECHNOLOGY OF COMFORT' is overlaid on the left side of the image.

# TECHNOLOGY OF COMFORT

For a topmost comfort, we have to reach for a top-level technology. The entrance *Premium* is among the best-insulated aluminum doors in the world, thus it eminently preserves the agreeable room temperature. It achieves it by the innovative using of the insulation filler of the panel door, its amazing thickness, the four-folded tightness and the four-folded glazing.

The thermal conductivity testing results of the entrance enthuse even the experts at one of the most renowned European institutes, the German IFT Rosenheim. They stated a theretofore unattainable thermal conductivity quotient for aluminium entrance doors:

**0,73 W/m²K.**

High technology also provides the innovative appearance and comfortable unlocking. The soft LED lighting of selected details in your door gives an impression of magic softness. You can forget looking for the keys. The in-built fingerprint reader opens the door for you and your family.

## STANDARD EQUIPMENT

### STANDARD COLOUR

White RAL 9016

### SAFETY ROSETTE

View from outside

View from inside

A young child with blonde hair is sleeping peacefully at a wooden table. Their head is resting on their crossed arms. To the left, there is a white bowl with a blue rim containing cereal. The background is softly blurred, showing white chairs.

# GUARANTEE OF EXCELENCE

**The owner of the *Premium* entrance takes pleasure in a product that is planned, designed and crafted under the highest requirements. What is the secret of the prominence that similar products cannot keep up with?**

The aim of the *Premium* entrance designers and craftsmen is not to beat similar product but to surpass themselves.

Therefore, they manage to improve what is already valued as topmost or unattainable.

Their designs enchant the admirers of beauty over and over again. The powerful door reassures the lovers of safety over and over again. Simply and perfectly safe opening and unlocking repeatedly spoil the family members. Every entrance is a unique,

handcrafted masterpiece, supported by the topmost certificates and guarantees.

It enthuses architects. Fascinates lovers of beauty. Amazes technologists. Delights the owner. Guaranteed.

SYSTEM

**THE BASIS OF EVERY  
PIRNAR ENTRANCE**  
PROFILE ADS 85

The plainest entrance is trimmed with the construction of the perfect Schüco profiles, the masterly make and fanatic attention down to the smallest detail.

**ADMIRATION WORTH  
INSULATION**  
PROFILE ADS 95

A double thickness of a door panel, a triple glazing and the innovative insulation solutions ensure comfortable residing and extremely low heating costs.

**WARMTH COUPLED  
WITH FIRMNESS**  
PROFILE ADS 125

A substantially stronger frame notifies that people who live here are not afraid. The frame is extremely stiff and firm owing to its thickness and special construction.

**UNCOMPROMISING  
GUARDIAN**  
PROFILE ADS 140

The top of the *Premium* offers: the exceptional thickness and insulation, the fourfold glazing and the fourfold tightness. The perfect masterpiece to make you proud.

Option **ADS 95 SI**, **ADS 125 SI**, **ADS140 SI**: for extraordinary requirement (oversizes) and high demands we recommend profile option SI (divided slide profile and Schüco - original thermal foam)

## A SEA OF OPPORTUNITIES

You are unique. And so is your home. You took care of this with the furnishings and a number of small things that belong only to you. You can do the same with your entrance.

Your entrance tells who you are, how you think, what is important to you. It speaks of your feeling for beauty and the refined. Thus, it is important that it is designed in such a way that introduces you in the best possible light.

The only limit of the *Pirnar Premium* entrances is your imagination. You can have your choice of door panel dimension and lighting. You can have your choice of style and dozens of design within that style. You can have your choice of color, surface treatment, your choice of glass and its treatment, handle, knocker and lock. A remarkable number of combinations and possibilities enable you to design your entrance completely to your wishes and needs.

With the discreet LED lighting your door gains a dash of magic, romance or special elegance that shines at nightfall.

Be original – and show that.

Fingerscan and LED illumination as option on all models.

Inox application and alu frame of glass - standard outside over

Equipment → Pages 64-72

# MASTERY TO THE LAST DETAIL

In order to attain excellence we must reach for perfection.

Every *Premium* entrance is a surplus, born from this aspiration. It is shaped with great focus on well thought out and selected details. Mastery is embedded in every step – from the perfect planning and inventive design to the pedantic precision of production.

Moreover, what is a motive of the continuous effort toward the better and the more beautiful? What drives the handicraftsmen to surpass themselves again and again? Is it the man's yearning to reach for the stars, to accomplish the impossible?

They alone probably know the answer. You will feel its result every time you enter the door. The refined lines, the harmony of forms, the value of materials and its perfect design will fill you with contentment again and again.

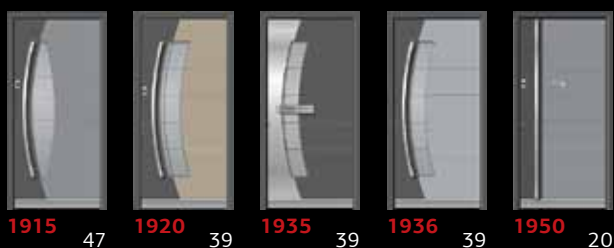

You will start your day with the awareness you chose a masterpiece.

## PIRNAR PREMIUM CLASSICO

A man and a woman are sitting on light-colored cushions on a white floor, facing each other across a low, square wooden table. The table is made of vertical wooden slats. On the table are plates of food, a black teapot, and chopsticks. The woman, on the left, is wearing a black and white patterned dress and is holding chopsticks. The man, on the right, is wearing a white shirt and dark pants. In the background, a fireplace with a dark frame contains a bright fire. The wall behind the fireplace is white with some texture. The word "OPTICO" is written in large, white, sans-serif capital letters across the middle of the image, partially overlapping the table and the couple.

OPTICO

*Premium Optico* is a contemporary part of the Premium line. Sometimes it is playful, sometimes refinedly elegant, and always fresh and in the spirit of time. One look and one touch will be enough and you will wish to open it every day. Premium Optico will amaze you with the masterpiece making and the universal beauty that will make every home more precious.

A photograph of two young children, a girl and a boy, sitting on a dark brown leather sofa. They are both wearing white t-shirts and blue jeans, and are barefoot. They are looking down at an open book held by the boy, with the girl pointing at a page. In the background, a stone fireplace with a black metal grate contains a bright, glowing fire. The scene is warmly lit, suggesting a cozy indoor environment.

A home, trimmed by a respectable age and a romantic touch of the past, needs something special. *Premium Classico*, with its timeless beauty perfectly mixes with a facade from its best time. Every *Classico* door's ornament is poetry worth watching longer and with respect. The same is your home.

The glass in all Classico models has a rustic aluminium frame. The exterior frame is for the aesthetic reasons, the interior one serves for the eventual change of the glass. In models without glass, the interior rustic frame is a part of the optional fitting.

# TOUCH IT

To see a photograph of *Pirnar* entrance is enrapturing. But even in your dream it will not get you ready for the real surprise. The real surprise is when you look at these masterpieces with your own eyes and slide your hand over its surfaces and brims.

Only then you could realize the size of an entrance. Only then you would feel how a door opens. Only then you will understand what a feeling of firmness their exceptional thickness awakes.

Experience yourself the experience of your guests in front of your house. Admiration.

Visit the nearest salon with Pirnar doors today.

## ULTIMIUM

MULTILEVEL & PURE

For the most demanding. Amazing innovations of marvelous forms.

*Pirnar Ultimium* represents the most admired and technologically most perfect entrances in the market. Designer lines MULTILEVEL with 3-D multilevel thickness and PURE with a complete one surface leveling are unique and bold innovations.

## PREMIUM

Distinguished design, hand made masterpiece. The pride of home.

*Pirnar Premium* is the entrance of exceptional firmness and top design for long decades of usage with pride. It offers over standard thickness of a door panel and unsurpassably low thermal conductivity quotient: 0,73 W/m²K. It is and ideal choice for low-energy homes.

## BASICO

Quality at an affordable price.

*Pirnar Premium Basico* is something special. It is a topmost, price accessible entrance of sophisticated forms that encourage admiration. It is a well thought solution for prudent perfectionists. It is embellished with thermal and sound isolation, flawless make and firmness of the best aluminium profiles.
